

Key Highlights:

1. Used extensively across the EU – in Antibiotic Free, Organic and Conventional diets. (EU restricted feed antibiotics in 2006) Available as powder, granular or liquid. Incorporates well into milk replacer, free choice mineral, pellets, tubs, liquid feed and water application.

2020 USA Animals fed:

>35,000 Beef & Dairy cows | >230,000 Calves | >2 m Poultry | >9,000 Goats/Sheep/Deer | >45,000 Pigs

2. **Organic Product** – Dehydrated Sweet Chestnut wood sediment is natural Farmatan Tannin. Certified Organic in EU and in USA.

3. **Protects the Gut** – aids in prevention of leaky gut, prevents absorption in small intestine.
4. **Pathogen-Load Reduction** – multiple modes of action impacting pathogen development (Cocci, Crypto, Clostridium, E. Coli, Salmonella, Lawsonia as well as Rota/Corona virus)
5. **Improved Protein Conversion and reduced Ammonia** – improves liver function and fertility
6. **Higher IgG's in Colostrum** – improved milk production and lower SCC
7. **No Withdrawal issues** – usage at any stage for any time period
8. **Heat Stable to over 150 C** – feed processing is no issue.
